

Galaxy Macau hires Master of Wine

Jeannie Cho Lee, who in 2008 became the first Asian to pass the Master of Wine Examination, has been hired as Master of Wine for Galaxy Macau.

She will oversee the development of its wine list, food pairing aspects and a series of dinners, seminars and other special events.

Galaxy Macau will put significant emphasis on Burgundy and the red Pinot Noir grape, based on Ms Lee's belief that Pinot Noir is an exceptional and versatile red grape that pairs well with a variety of Asian cuisines.

Galaxy Macau's wine list will also include wines made in Asia.

"I have already selected more than 20 Asian wines for the property's master wine list, from countries such as China, India, Japan and Thailand, and this number will continue to grow," said Ms Lee.

Galaxy Macau is set to open in the first half of 2011.
